About This Game

Camp W puts you in the role of a young Witch experiencing their first ever summer away from home at sleepaway camp. But there's a twist! (*Isn't there always?*) Though you're from the Witching Realm, where magic is commonplace, you'll be enrolling at a summer camp for Humans who have long since forgotten that Witchcraft exists. While summering in the Human Realm, you'll have to conceal your identity and make sure not to get caught practicing your craft. Make friends, cast spells, and uncover secrets during your first ever summer away from home. **Welcome to Camp W!**

Features

Friending Simulator - Camp W is filled with interesting characters, but everyone can't be your best friend -- that would be exhausting. You'll have to decide which campers interest you the most and then get to know them and their stories over the course of your playthrough.

Mysteries Await - There's more to a summer at Camp W than kickball and friendship bracelets. Discover secrets about the history of the Witching Realm and battle evil forces who threaten to rain on your summer fun.

Get Your "Choose" On - You decide which camp activities to attend, which questions to ask, and how you want to respond at critical moments throughout the game. One playthrough won't be enough to explore every path of this branching story.

A Hand-Drawn World - Visit more than twenty beautifully illustrated locations--during the day and at night--and hang out with fifteen fun characters, all of which feature a range of fun poses and expressions. Not to mention your Grimoire, which will fill up with drawings as you play through the game.

Collectables Galore - Cast 12 different spells, earn 18 unique badges, and unlock 60+ illustrated memories. You'll have to replay the game to see them all, but it's worth it--and you'll earn achievements along the way.

All-Ages...But Not Just For Kids - Camp W was designed to be enjoyed by all ages, and we mean it. Youngsters and adults alike will find a lot to love about the story, dialogue, humor and drama throughout the game.

Original Score - A complete score featuring more than a dozen tracks composed just for this game by talented composer and musician Davey Thomas Tucker. [Listen to it online for yourself right here!](#)

The graphics in the cutscenes and gameplay didn't render correctly, and I can't play the game like that.. Cliche philosophy ducktaped to a clunky horror setting.

It's a free experience, and you get what you pay for.. It has Porsches. I wouldn't pay for this, came bundled with the game.. New single player content, and more importantly in my opinion, more multiplayer maps.. The original boardgame is excellent. The port has excellent animation, sound, interface, and even cross-platform play. But there's one glaring defect that makes this game almost worthless: The turn timer for asynchronous games doesn't work. Without the functionality for players to time out of a game when they stop making a move, the result is that 99% of games end up locked irreversibly when a single player goes absent (so for example in a 5 player game, you end up with 4 players unable to make any further moves and having wasted their playtime). As a result of this, it's impossible to finish any game unless you set it up with a known friend in advance and make sure they make every move, communicating from outside the game.

A shame, because it seems like that kind of detail could be patched easily (however the devs say it can't). Don't expect to play this online with strangers.. Missing a ton of songs from the game. For \$10 you would be better off waiting until they add them.

I like how the game was developed. Great puzzle game, however , way TOO HARD! Its unfortunate because this has some real potential. Since I bought it for 99c I wasn't too upset, but I can't finish it. Sad..... Keeps crashing. Can't change cotrols. Takes forever to load. DO NOT BUY THIS GAME.

Oh and if you play anyway, don't double KO on the wizard boss or you will have to start over from the beginning : the key that drops will be lost forever and you won't be able to open doors to continue the game... neat huh?. si it's fun just to mess around with. a fun Free to play VR game with gameplay mechanics feeling right. Original gameplay based on terraforming, with two main styles: versus environment and versus other factions. Vague and complex storyline unfortunately unavailable in english because western publisher though that western players are too dumb and will not get it. This version published by original company though, so there is a chance that they restored it and returned cut scenes. I played original so i didn't check english one.

Graphically it's still impressive and have a good art style, especially considering that modern games still look like they were made in 2005 due to outdated and underpowered hardware for casuals.

Works pretty well on win 7.. Nothing has made me more mad but love it just as much with its poor grammer is so funny but the elements that make it feel like flappy bird. honeslty if you want a game that will make you rage and have a good laugh with its this game.. I have not played it yet but Eugen gives a healthy amount of FreeLC.. The most fun you can legally have with a naked child.
