It's a nice little game, but it's certainly over priced.

Finding out the game is free on phones is a bit unfortunate. I have to thumbs down this game already, and probably will end up returning it because after an hour, I'm already bored.. I had it on mobile... amazing. Just one problem... THE PRICE. IT COSTS 17\$ WHEN ON MOBILE IT'S FREE! You should change the price to, like, maximum 6\$ or no one's going to buy it. Thanks.

Gameplay: 8/10, price -10/10.. Pros:

Finally NO micro-transactions, just a pure unadulterated game.

Cute graphics and pretty wholesome dialogue and mini-stories.

You're able to give your rival a piece of plain baked dough whenever he requests for a pizza.

Cons:

Probably a little too expensive for such a game, recommended that you get it on sale.

Nothing has changed from the mobile version, except with the removal of the micro-txns.

The pizza making gets tedious and repetitive.

Conclusion:

Fun little game but not worth \$15. Would get it on a sale (which I did).

. I can't help it...I'm in my 40s and was about 20 years ago addicted to Diner Dash. So pretty much any food prep time management game is something i'll play. So far this game doesn't seem too challenging, but I've only given it about an hour..  
Pizza time!
